

# Cup Thermoforming Machine

## **Cup Thermoforming Machine**

If you have come here for plastic cup thermoforming machinery, you have come into the right page. We are an experienced thermoforming machine manufacturer and supplier, located in China. On this page, we will introduce you our HFTF0660A and HFTF-660C cup thermoforming machines. These two plastic cup making machine can be used in the molding of PP, PS, HIPS, PVC and PET plastic sheet and the production of many kinds of food package containers such as milk cup, jelly cup, ice-cream cup, cake plate, and fast-noodle bowl.

### **Cup Thermoforming Machine, HFTF-660A Cup Machine**

The features and parameters of this types of cup making machine are as follows.

1. 10.4 Inch touch screen
2. Micro-PLC control system
3. Japan Panasonic Inverter
4. Japan Omron encoder and electric elements
5. This plastic cup thermoforming machine is able to finish feeding, heating, drawing, forming and cutting at a stroke.

#### **Main technical parameter**

Max. Forming Area	620×250mm
Width Range of Sheet	400-650mm
Max. Forming Depth	125mm
Sheet Thickness Range	0.25-2.5mm
Max. Dia of Sheet Roil	φ800mm
Air Pressure	0.7Mpa
Water Consumption	50Liter/min(15~20°C)
Air Consumption	2000Liter/min
Manufacturing Speed	10-32cycles/min
Power	AC380v±15v 3phase four wire
Heating Motor	70kw
Main Motor	11kw
Feeding Motor	2.2kw
Rewinding Motor	0.37kw

### **Cup Thermoforming Machine, HFTF-660C Cup Machine**

#### **Feature**

1. When this plastic thermoforming machine is used for manufacturing round containers, it is capable of completing material feeding, heating, drawing, forming and cutting at one-stop.
2. When used for square containers and containers of any other shape, Hengfeng plastic cup making equipment is able to finish the following steps at a stroke, that is, material feeding, heating, drawing, forming, cutting and transporting.

#### **Main technical parameter**

We are a professional cup thermoforming machine manufacturer in China. We are trying our best to use highly automatic production facilities in order to improve production efficiency, and we also make improvements on existing products

---

according to customers' feedbacks. As a result of all the efforts we have made, our plastic processing machines are practical and market-oriented. We are located in Rui'an China, where resources are rich and transportation is convenient. The advantageous geographical location gives an effective control on the cost of material, logistics, and labor force. In addition to thermoforming machinery, we at Hengfeng can also offer plastic extrusion machinery, printing machinery, and more. If you have any need, please feel free to contact us. We sincerely hope that you can come and cooperate with us.
